

ANEROS®

PRELUDE

ENEMA BULB KIT

ANEROS®, the first name in award-winning sexual health and wellness products, presents PRELUDE, the ultimate internal cleansing system. PRELUDE'S all medical-grade silicone design features a special slow-flow, one-way nozzle that introduces liquid gradually and comfortably, avoiding cramping and unhygienic backflow. PRELUDE'S unique nozzle backstop guides precise depth of insertion and allows easy disassembly for cleaning. When it comes to anal and prostate play, confidence begins with a PRELUDE.

The Prelude offers a new approach to internal cleansing, one that introduces the option of single or multiple lower volume rinses. This method is not possible with conventional enemas since they discharge too quickly, filling the bulb with air once ones grip on the bulb is released. The Prelude solves this via a special one-way, slow-flow valve that slows the flow of liquid and prevents the bulb from filling with air. The valve also assures sanitary operation, preventing backflow of liquid into the bulb. The Prelude makes this possible, providing for an easier, quicker and more comfortable cleansing session.
