

FOR A TRUE CLEAN – THE ANEROS SOAKER™

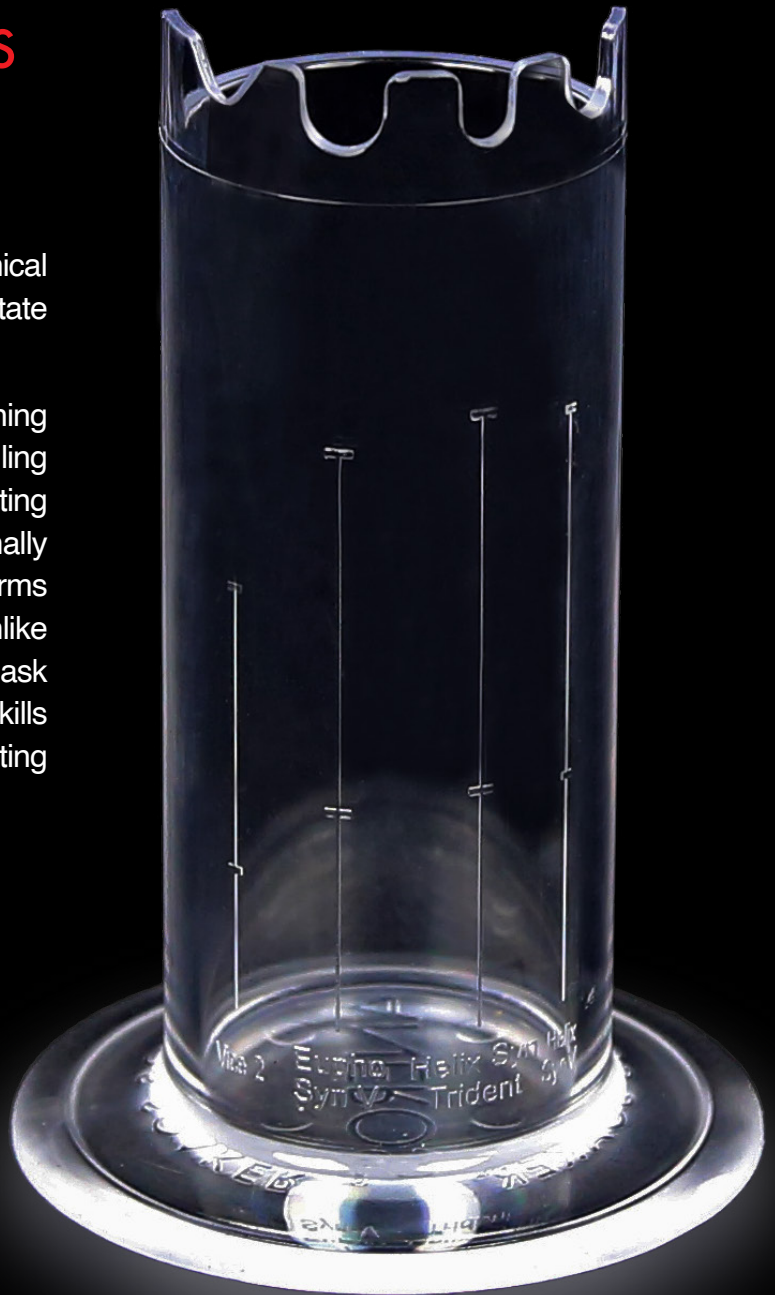

ANEROS® SOAKER™

SAFELY CLEANS, SANITIZES AND DEODORIZES ALL ANEROS MASSAGERS

The Aneros Soaker™ a safe, easy, and economical method for sanitizing and deodorizing Aneros prostate massagers using simple household ingredients.

The Soaker fully suspends your massager in cleaning solution for maximum surface area contact, killing bacteria, viruses, and molds (fungi) while protecting sensitive electronic charging components. Originally designed for our silicone devices, the Soaker performs equally well for all Aneros prostate massagers. Unlike fragranced sprays and wipes that temporarily mask odors, the oxidizing action in our cleaning system kills bacteria and breaks down their residues, eliminating odors at their source.

- SAFE AND EASY TO USE
- CLEANS, SANITIZES AND DEODORIZES
- FITS ALL ANEROS PROSTATE MASSAGERS
- USES SIMPLE ECO AND BIO FRIENDLY HOUSEHOLD INGREDIENTS
- TRUE CLEAN FOR A FRACTION OF THE COST OF WIPES AND SPRAYS
