

TEMPO™

STAINLESS STEEL

Unisex anal play for men, women and couples in an exotic material, stainless steel. In a couples scenario while worn by a woman, the male can actually feel its contours through the vaginal walls! How will Tempo move you?

In the tradition of our acclaimed Paradise massagers, strategically placed knobs utilize the natural rhythms of the inner and outer sphincters. Once inserted, both sphincters spontaneously contract causing this stainless steel beauty to quiver. With a little practice, the Tempo will provide amazingly powerful performances.

The S2 Series is made of medical grade Stainless Steel and features a beautiful mirror-like finish. Known for its integrity and ability to retain both heat and cold, Stainless Steel has long been regarded as the ultimate material for sensual exploration. The S2 Series is a true achievement in form and function.
